EDUCATION

Galgotias University, Greater Noida, India

Bachelor of Technology in Computer Science and Engineering

Sep 2024 – Jul 2028

CGPA: 8.6 / 10

TECHNICAL SKILLS

Languages & Frontend: JavaScript, Java, SQL, React.js, HTML, CSS, Tailwind CSS, Bootstrap

Backend & Database: Node.js, Express.js, REST API Design, MongoDB, MySQL

Tools & Cloud: Git, GitHub, VS Code, Docker (Basic), AWS (Learning)

CS Fundamentals: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Competitive Programming: 500+ problems on LeetCode; 100+ on GeeksforGeeks; active on Codeforces and CodeChef

Soft Skills: Leadership, Communication, Problem Solving, Team Collaboration, Adaptability, Critical Thinking, Time Management, Continuous Learning

PROJECTS

SkyGPT – AI Full Stack SaaS Platform | *Next.js 14, TypeScript, Node.js, MongoDB, Gemini API* | [Live](#) May 2026

- Built a production-ready AI SaaS platform using **Next.js 14** (App Router) and **TypeScript**; integrated **Google Gemini API** for real-time AI chat with streaming responses and multi-turn conversation context.
- Designed a secure **Node.js** backend with **MongoDB** for persistent chat history and user session management; implemented authentication middleware for protected API routes.
- Managed complete project lifecycle via **Git** branching strategy (feature → dev → main); deployed on **Vercel** with CI/CD pipeline — zero-downtime production deployments.
- Resolved critical production issues: Gemini API rate-limit handling, async error boundaries, and environment variable management across dev and prod environments.

TradeSphere – MERN Stack Trading Dashboard | *MongoDB, Express.js, React.js, Node.js, REST API* | [GitHub](#) Jan – Mar 2026

- Architected a full-stack trading dashboard using the **MERN** stack; built **10+ RESTful APIs** with Express.js handling buy/sell orders, portfolio updates, and transaction history — achieving 30% faster query response via MongoDB indexing.
- Developed modular **React.js** components with **useState/useEffect** hooks: live stock watchlist, order simulation engine, holdings tracker, and P&L summary module; managed global state with Context API.
- Implemented **JWT-based authentication**, bcrypt password hashing, and role-based route protection on the Express.js backend; tracked 100+ simulated transactions with real-time portfolio analytics.
- Maintained codebase on **GitHub** with structured commits and pull request workflow; tested APIs end-to-end using **Postman** before frontend integration.

FilmyHub – Movie Browsing Web Platform | *HTML5, CSS3, JavaScript (ES6+), TMDB API* | [Live](#) May 2025

- Developed a responsive movie browsing platform consuming the **TMDB REST API** (fetch + async/await) to render live movie data: trending, genre-wise, and search results with dynamic DOM rendering.
- Built fully responsive layouts using **CSS3 Flexbox/Grid** and media queries; applied **JavaScript ES6+** for modular code, event delegation, and local state management without any framework.
- Deployed on **Vercel** with version control via **Git/GitHub**; optimized page load through lazy image loading and efficient API call batching.

EXPERIENCE

Infosys Springboard

MERN Stack Developer Trainee

Remote

May 2025 – Present

- Completed structured full-stack training across 6+ modules: MERN stack, REST APIs, authentication, and agile project-based learning.
- Delivered 3 end-to-end projects applying React.js component architecture, Express.js middleware, and MongoDB integration from design to deployment.

POSITIONS, HACKATHONS & ACHIEVEMENTS

Campus Brand Ambassador, IIT Delhi: Mentored 50+ students through technical workshops on software development best practices.

Club Coordinator, Galgotias University: Led technical events attended by 100+ students; demonstrated event management and teamwork.

Hackathons: AWS IMPACTX (IIT Bombay TechFest) – built ELLIOT, an AI-based solution; TechSprint (Google Developer Groups) – full-stack web app; WIE Hackathon – Digital Health Tracker.

BECon 2026, IIT Delhi: Attendee at Entrepreneurship & Startup Conference focused on technology-driven business innovation.

Certifications: GUVI Full Stack Development | Infosys Springboard Engineering Skills | Oracle DBMS.
