EDUCATION

Galgotias University — B.Tech, Computer Science & Engineering

Greater Noida, India

CGPA: **8.6 / 10** | Coursework: DSA, OOP, OS, DBMS, Computer Networks, System Design

Sep 2024 – Jul 2028

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript, SQL

Frontend: React.js, Next.js 14, HTML5, CSS3, Tailwind CSS

Backend & DB: Node.js, Express.js, REST APIs, MongoDB, MySQL, JWT Auth, bcrypt

Tools & Practices: Git, GitHub, CI/CD (GitHub Actions + Vercel), Docker, Postman, Agile/Scrum

CS Core: Data Structures & Algorithms, OOP Design Patterns, DBMS, Operating Systems, Computer Networks

Competitive Programming: 700+ problems — LeetCode, Codeforces, CodeChef, GFG | **Top 3, Codolio National Leaderboard** | **AIR 499 (GFG)**

EXPERIENCE

Software Engineering Trainee — MERN Stack

May 2025 – Present

Infosys Springboard

Remote

- Engineered **3 production-ready full-stack applications** applying OOP design principles, layered REST API architecture, and Agile sprint methodology across **6+ structured engineering modules**.
- Collaborated in weekly stakeholder demo cycles; resolved **15+ defects** across release iterations and delivered all features within committed sprint timelines.
- Proactively adopted new engineering practices each sprint — JWT auth, CI/CD pipelines, system design fundamentals — consistently shipping production-ready builds under time constraints.

PROJECTS

SkyGPT — AI SaaS Platform | *Next.js 14, TypeScript, Node.js, MongoDB, Gemini API* | [Live](#) | [GitHub](#)

May 2026

- Architected a **production-grade multi-modal AI SaaS platform** (text, image, code generation) using Next.js 14 App Router and TypeScript; applied OOP and modular design patterns for independent feature scaling.
- Engineered Node.js/MongoDB backend with **persistent session management**, auth middleware, and Gemini API streaming with fault-tolerant retry logic ensuring reliability under concurrent user load.
- Built **Stripe-based tiered subscription system** with access-controlled API routes; CI/CD pipeline (GitHub Actions + Vercel) enabling **zero-downtime deployments** with environment-isolated observability.

FilmyHub — Full-Stack Movie Platform | *JavaScript ES6+, Node.js, MongoDB, TMDB API* | [Live](#) | [GitHub](#)

May 2025

- Built a **full-stack movie discovery platform** with debounced search, genre filtering, and pagination; batched async API calls reducing redundant TMDB requests by **40%** and improving page load performance.
- Designed **MongoDB watchlist and reviews system** with normalized schema, aggregation pipelines, and JWT session auth; deployed via Vercel CI/CD achieving consistent uptime with zero manual release effort.

ACHIEVEMENTS & LEADERSHIP

AWS ImpactX Finalist | *IIT Bombay TechFest — National Hackathon*

- Selected as **national finalist** among university teams across India; built ELLIOT — an AI-driven social impact platform — end-to-end in **24 hours**, demonstrating product thinking and rapid engineering under pressure.

Competitive Programming | Codolio / LeetCode / Codeforces / CodeChef / GFG

- Top 3 nationally on Codolio leaderboard** (700+ participants) | **AIR 499 on GFG** | **700+ problems** solved across graphs, DP, trees, binary search, and system-level algorithms.

IIT Delhi Campus Brand Ambassador | **Technical Club Coordinator**, Galgotias University

- Mentored **50+ students** on DSA and software engineering; organized technical events for **100+ attendees** showcasing cross-functional collaboration and stakeholder communication.

CERTIFICATIONS

GUVI — Full Stack Web Development

| **Infosys Springboard** — Software Engineering Skills

| **Oracle** — DBMS Fundamentals
